

Atdhe Buja is a world-renowned cybersecurity expert with decades of experience. As Project Manager (PM), Atdhe has established and led the CERT team in academia and the private sector in Southeast Europe.

Atdhe is an EC-Council Instructor (CEI), Microsoft IT Professional, and Oracle Administration for RDMBS, and a leading authority on information technology, Industrial IoT, and ICS/SCADA cybersecurity.

Atdhe research work focused on cybersecurity countermeasures for Industrial IoT, IoT security, ICS/SCADA infrastructures, wireless sensor network WSN, cybersecurity of ML and artificial intelligence, and database management systems. He has made scientific contributions to these fields and has published articles, books, and papers in journals, conferences, and workshops. His work was recognized as unique, and he holds patents. He is a contributor to and a member of GCTC Smart Cities at NIST.

He has held various roles in the cybersecurity industry, including database administrator, CIO, CERT team manager, cybersecurity trainer, and penetration tester.

Atdhe is passionate about helping organizations protect their critical infrastructure from cyberattacks. He is a sought-after speaker and consultant, and his work has been featured in numerous publications and media outlets.
