

Master of Education Program
M.Ed. Teaching & Learning and M.Ed. Alternative Education
Student Learning Outcomes

Learning outcome 1-Lesson Planning- Standards

Graduate students will demonstrate skills and knowledge of meeting diverse learner needs through lesson planning based upon standards

Learning Outcome 2- Lesson Planning-Differentiation

Graduate students will demonstrate competence in addressing diverse learning needs through the use of technology or through the differentiation of process, product, content and/or learning environment

Learning Outcome 3- Classroom Management

Graduate students will develop a classroom management philosophy emphasizing positive learning environments utilizing Choice Theory

Learning Outcome 4-Knowledge

Graduate students will know the subjects they teach and how to teach those subjects to students' level(s) of performance

Learning Outcome 5-Pedagogy

Graduate students are committed to students and their learning

Learning Outcome 6-Professionalism

Graduate students demonstrate professional behaviors and attitudes essential to the teaching profession. Dispositions, ethical behaviors, caring communication, and life-long learning are among the professional behaviors related to this outcome

Learning Outcome 7-Environment

Graduate students are members of learning communities

Learning Outcome 8-Reflective Decision Maker

Graduate students think systematically about their practice and learn from experience
